Kloskut® Tube Cutters

These adjustable tube cutters are designed to produce square cut ends with no external burr and minimum internal burr when used on fully annealed copper, brass, aluminum, and steel tube. Both feature a hardened and burnished tool-steel cutting wheel, flare cut-off grooves in rollers for removal of old flares and a swing-away reamer for removing internal burrs. The handle feeds and adjusts the cutting wheel to uniformly cut tube as the cutter is rotated.

NOTE: Tube cutters are **not recommended** for use with stainless steel tube because of the work hardening effect. The use of a hacksaw with a "Tru-Kut" Sawing Vise or a rotary teeth saw is recommended for stainless steel.

Fig. S48 — 218B Medium Kloskut

Medium Kloskut

| Part Description | Part No. |
|---|-------------|
| Tube cutter for 1/8" to 1 1/8" O.D..... | 218B |
| Cutter Wheel for 218B | 218B Wheel |
| Tube Reamer for 218B | 218B Reamer |
| | 218B Shaft |
